

Project Track - Exports Data India - Prepared By : Nikhil V Nayak (Welingkar Bangalore)

- From the data obtained using data.gov.in
- The data contains major sectors contributing to export over a period of 12 years

The methodology followed was as follows :-

- Use heatmap to understand major contributors to export sector.
- The next diagram depicts average export contribution of various sectors. This helps in understanding from which sector there is a constant demand.
- The last graph depicts the 10Y data related to exports and how certain sectors have shown huge growth compared to others.
